AI Enabled ANPR

TimeWatch ANPR device is designed for reading vehicles number with high accuracy.

ANPR engine is powered by advanced AI Technology which is capable of capturing and reading license plates in complete darkness, glaring light, and adverse weather conditions. The exceptional detection and recognition capabilities of the device help integrators provide solutions for challenging imaging problems at critical infrastructure sites and remote facilities

TimeWatch ANPR device is easy to install and setup. It comes with in-built integration for boom barriers and access controllers. Vehicle hot listing feature facilitates raising alerts for Stolen/Suspected vehicles. Smart dashboard and reports help to view and analyze the vehicle data from broader perspectives. It works perfectly for all categories of vehicles including two wheelers & auto
